## **Blickpunkt – Perspectives on Dance in Early Childhood Education**

April 21 and 22, 2023

What is the significance of dance in early childhood education? In which way do creative processes through movement and dance support children in their most early years? Over two full days, inputs from the thematic fields of artistic practice, dance education and epistemology will be given, pop-up guest performances for young children will be performed and workshops will be offered. Participation is free of charge.
